

*150 years ago the miners of  
Woods Point knew they'd discovered  
a golden opportunity.\**

*In 2010 we have no doubt about it.*

*The Morning Star Gold Mine at Woods Point in Victoria, once the easternmost jewel in WMC's crown and the largest gold mine in Australia, is back in production.*

### *Morning Star Gold NL (ASX: MCO)*

- Australia's newest High Grade Gold Producer from Melbourne*
- 220km<sup>2</sup> Blue Ribbon Tenements with 6Moz Historical Gold Production*
- Morning Star Gold Mine (WMC 1934-59) redeveloped to 310m depth*
- Tightly held Share Register with \$8M Cash and Zero Debt*
- Onsite Gravity Mill set to process 80KTPA targeting 15g/t Au*
- 910KOZ JORC Resource and consistent High Grade Gold Assays*
